ABOUT ME

AI Platforms Research Engineer at IBM Research. MSc student in CS (Reichman).
BSc in Computer Science and Mathematics, Tel Aviv University.

EXPERIENCE

IBM Research
2024 - Present

AI Platforms Research Engineer
Research student 2024–25. Research Engineer since 2026.
ZipNN: lossless compression for AI models; added streaming, delta compression, multithreading.
llm-d: distributed LLM inference on Kubernetes; built KV-cache PVC Evictor, chat preprocessing, multimodal cache-affinity scorer.
TCAP award for leadership of the llm-d open-source project.

Tel Aviv University
2021 - 2023

Research & Teaching Assistant
Research: Python scripts for a matching problem; data analysis.
Teaching: Computational Models and Complexity courses (CS BSc).

PUBLICATIONS & PATENT

ZipNN: Lossless Compression for AI Models. IEEE CLOUD 2025

SkyStore: Cost-Optimized Object Storage Across Regions and Clouds. VLDB 2025

Patent: Efficient Exponent Compression for Large AI Models (US app. 19/365,918, 2025)

EDUCATION

Reichman University
2023 - Present

MSc student in Computer Science, GPA 97
Thesis (in progress): “Scheduling Games with Strategic Job Durations” (Algorithmic Game Theory), advisor Tami Tamir.
Talk at Israel AGT Day 2026.
ISTRC 2025–26 scholarship.

Tel Aviv University
2019 - 2023

BSc in Computer Science & Mathematics, GPA 87

Metro Highschool
2012 - 2015

Graduated with honors (CS & Physics). 35 units, 116.6 average.

PROJECTS

Klafi
Hebrew civic card game built with Reimagine Israel to encourage voting and political literacy
https://klafi.vercel.app

GameRev
Video game review site
https://game-rev.vercel.app

Game Development
(C#, Unity)
Self-learned game development by completing Udemy courses.
Shipped two Unity games for Club Tech.
View my portfolio of games at: https://guygir.itch.io

ADDITIONAL

Languages
Native in Hebrew, High proficiency in English.

Military Service
2015 - 2018
Graduated with excellence in Search and Rescue training course.
Commander's course; Commander and Sergeant of Recruits.
